Dear Ming-Chieh,

Congratulations! I am delighted to offer you admission to the Materials Science and Engineering Master of Engineering (M.Eng.) program beginning in **Fall 2026**. We are very pleased to welcome you to both Cornell University and our M.Eng. program and hope that you will accept our offer.

The M.Eng. degree program is one academic year (two semesters) long, and roughly nine months in duration overall.

We are not able to offer financial support for your M.Eng. degree program. As an international student, you will be asked to provide evidence of financial resources sufficient to cover the costs of attendance, including living expenses, for the minimum duration of your program.

For your planning purposes, estimated expenses for the 9-month academic year are approximately **\$108,684.00** for one academic year (two semesters). The breakdown is as follows:

\$ 71,266.00 – Tuition for **2026-27** Academic Year
\$ 32,708.00 – Cost of Living Expenses for **2026-27** Academic Year
\$ 4,710.00 – Mandatory Fees + Student Health Plan for **2026-27** Academic Year
\$108,684.00 – Total Estimated Cost for the **2026-27** Academic Year

Cost of attendance and loan information can be found on the [Cornell Financial Aid website](#).

These estimates are based on the **2025-26** Academic Year [Cost of Attendance calculated by the Office of Financial Aid and Student Employment](#). You can expect the Cost of Attendance to increase by 2 - 5% each year you are enrolled at Cornell and should budget accordingly. These figures are also based on a single student's living expenses without dependents. If you are to be accompanied by dependents, your estimated expenses will be recalculated accordingly.

After reviewing this letter, we request that you [respond to your offer of admission online](#) no later than April 15, 2026.

Please note that positions in this program are very limited. To accept admission, you will be required to make a non-refundable deposit of \$1000. Of this, \$500 will be credited to your Cornell Bursar account at the time your first semester tuition is paid. The remainder will be applied to support your mandatory

Cornell Duffield Engineering

Department of Materials Science and Engineering

participation in the **MSE MEng Orientation Program which will take place the week of August 17, 2026**, you should plan on arriving to Ithaca before that date.

Our offer of admission is contingent upon you satisfactorily completing any coursework currently in progress, if applicable, and continuing to uphold high standards of character in activities outside the classroom.

Upon your enrollment at Cornell, you will be subject to and expected to adhere to Cornell University's Code of Academic Integrity, among other university policies and procedures.

Before accepting this offer, please review:

- [Cornell University's Code of Academic Integrity](#)
- The [Cornell Student Code of Conduct](#) (Student Code)
- [Cornell University Policy 6.4: Prohibited Bias, Discrimination, Harassment, and Sexual and Related Misconduct](#)

Please note that by accepting an offer of admission to the Materials Science and Engineering M.Eng. program, you are also assuming the rights and responsibilities of an incoming professional graduate student at Cornell. These include:

- Activating your Cornell Net ID and email account as soon as you are able;
- Reading and responding promptly to all communications from the Materials Science and Engineering M.Eng. program and Cornell University;
- Completing administrative tasks in a timely manner and meeting required deadlines;
- Enrolling in courses during the designated enrollment periods;
- Promptly notifying the Materials Science and Engineering M.Eng. program of any anticipated delays in your arrival to campus; and
- Promptly notifying the Materials Science and Engineering M.Eng. program if you decide to withdraw your acceptance of this admission offer.

These actions will help ensure a successful start to your journey in the Materials Science and Engineering M.Eng. program.

Congratulations again on your success in being admitted. I hope that you will choose Cornell for your graduate studies. If you have any questions, please do not hesitate to contact me (koe8@cornell.edu) or Assistant Director, Jannica Moskal (mse-gfa@cornell.edu). Jannica can best help you with administrative questions (housing, travel, etc.), while I can help you with questions concerning the educational aspects of the program. I look forward to hearing from you.

Sincerely,

Kintu O. Early
Master of Engineering Director
