Major: Materials Science & Engineering MS
Unit: Materials Science & Engineering

Dear Ming-Chieh Hsu

Congratulations! As the Dean and Vice Provost of Graduate Education, I am pleased to extend your official offer of admission to the Materials Science & Engineering MS program at University of California, Los Angeles (UCLA) for the Fall of the 2026-2027 academic year. You have been selected from a pool of exceptionally qualified applicants because of your academic achievements and potential for advanced contribution to knowledge.

If you are being considered for a fellowship, teaching assistantship, or research position, you will receive a separate notification with details on any award or appointment.

Action Items

- To secure your place at UCLA, please complete the **Statement of Intention to Register (SIR)** and **Statement of Legal Residence (SLR)** on [MyUCLA](#) as soon as possible. All students who intend to enroll at UCLA must complete the SLR.
- The [Graduate Admission Checklist](#) will tell what you need to do to matriculate as a student at UCLA.
- To finalize your admission, you must submit your final, official documentation from your baccalaureate institution showing that you have met admissions requirements. Your official documents must be received by your graduate program before the start of the term. Please refer to the Graduate Admission Checklist for more information.

Because you are an international student and thus not eligible to establish California residency, you will be assessed additional [Nonresident Supplemental Tuition \(NRST\)](#) each quarter. Your funding offer letter will note whether your department will cover any portion of your NRST.

UCLA is one of the nation's most outstanding public universities, a hub that links our dynamic metropolis to the Pacific Rim and the global community of scholars in every field. Our students and faculty address broad societal questions, pioneer new technologies, advance medical knowledge and public health, excel in the arts and humanities, create new fields of interdisciplinary scholarship, and enrich our community. We hope that UCLA will be the place where you choose to continue your education and follow your path of discovery.

We encourage you to explore your graduate program, our vibrant campus, and the Los Angeles area—whether through our online resources or by visiting in person. UCLA is a dynamic community, and we look forward to welcoming you. The Division of Graduate Education staff have prepared [orientation information](#) for new students and the staff in your department and at the Graduate Student Association fall orientation event will introduce you to a wide range of academic, professional, social and cultural resources. We are thrilled to have you join our graduate community, and I look forward to welcoming you to UCLA. Best wishes for success in your studies and beyond. Go Bruins!

With best wishes,

Brian Kite
Dean and Vice Provost of Graduate Education

Acceptance Deadline

The deadline to accept our offer of admission to Materials Science & Engineering MS is April 15, 2026. If you receive a funding offer with a different deadline, it cannot be earlier than April 15, in accordance with the [Council of Graduate Schools' \(CGS\) resolution](#).

Terms and Conditions

Meeting Graduate Student Policies. Continued enrollment in the graduate program is contingent upon adhering to all policies regarding academic progress for graduate students at UCLA, general standards for the award of graduate degrees, and the conditions and procedures that govern academic standing and degree candidacy and individual program requirements. Failure to meet any of these requirements and conditions may result in loss of funding and/or impede or terminate a student's progress toward their degree goal. For complete policies and procedures, please visit [Standards and Procedures for Graduate Study](#) and [Program Requirements for UCLA Graduate Degrees](#).

Tuition Rate. The tuition [rate for each academic year](#) is subject to approval by the UC Regents.

Summer Support. Eligibility for summer support varies, based on the source of the funding.

Residence Requirement. Candidates for advanced degrees are expected to be physically present on campus for each academic term unless they meet the requirements for [in-absentia](#) registration or leave of absence.

Work Eligibility Requirements. Students must meet requirements to satisfy work eligibility requirements and/or [legal employment authorization](#) in the United States in order to be employed on campus, including the timely submission of all documents required by the University to process a request for work authorization.

Withdrawing or rescinding an admission or funding offer. The Division of Graduate Education reserves the right to withdraw, rescind, or modify an offer of admission or funding under the following conditions:

- (a) any part of an application contains misrepresentations;
- (b) an applicant fails to graduate and receive an undergraduate diploma (or its equivalent) before the start of the term, or otherwise will not hold the academic credentials presented in the graduate application;
- (c) an applicant who is admitted through the regular admissions process and currently enrolled in a degree program shows a drop below UCLA's requirement of a minimum grade point average of "B" (3.0 on a 4.0 scale) or its equivalent in undergraduate study or in graduate level study between submitting the graduate application and graduation;
- (d) an applicant accepts UCLA's offer of graduate admission as well as an offer of admission to another full-time graduate program for the same period of enrollment;
- (e) an offer was made in the case of procedural error

These terms and conditions are subject to change as a result of action by federal and/or state governments or the Administration of the University of California, Los Angeles and/or UC Regents.
